

With the
**PASSENGER ACCESSIBILITY
& SERVICES SYSTEM (PASS)**

**EVERYBODY
CAN CONTROL THEIR
OWN ENVIRONMENT!**

PASSENGER ACCESSIBILITY & SERVICES SYSTEM (PASS)

Making Flying Easier with Passenger Accessibility right at the seat or even on your phone!

PASS BRINGS THE CONTROL TO YOU ! READING LIGHTS, FLIGHT ATTENDANT CALL, AIR VENT CONTROL, & EVEN USB POWER AVAILABLE RIGHT AT THE ARMREST OR ON YOUR MOBILE VIA THE PASS APP

- **PASS** is built on IFC's existing PSS for flying all over the world.
- **PASS** provides disabled passengers Independence by giving them Individual Control over their personal Comfort and Needs.
- Passengers with disabilities can Access Reading Lights, Flight Attendant Call Light, Air Vent Control & USB power all at their armrest or via the **PASS** app on their mobile phone.
- Utilizes Existing Boeing PSU & Airbus PSIU Panels.
- No Seat Box Required.
- Completely Scalable – **PASS** can be installed on just 1-2 rows or the entire aircraft.
- No Seat SB or TSO Changes Necessary.
- DO-160G Approved.
- Fast Overnight Installation.

THE PASS SYSTEM, INNOVATIVE AND CREATIVE

IFC PASS System brings all of the PSS functions including Reading Lights & Flight Attendant Call Lights to the seat.

IFC PASS System also brings control of the air vent to the seat – change the rate of air flow and direction. All from the armrest.
